HARDWARE HACKATHON

Tagline: Think. Solve. Build.

Official Rule book

Organised by: Robotics Club, NIT Nagaland

1. Event Overview

Hardware Hustle is a hardware-based engineering competition designed to test participants' electronics knowledge, problem-solving, circuit-design, teamwork, and practical implementation skills. The event consists of three rounds: Quiz, Design Challenge, and Build Arena.

2. Participation Rules

- Round 1 is conducted individually.
- For Rounds 2 and 3, qualified participants may compete individually or in teams of exactly two members, as permitted by the organizers.
- Participants must carry valid institute identification and report on time.

3. Competition Rounds

Round 1 — Quiz

- An individual technical assessment covering basic engineering and electronics concepts.
- Unauthorized communication, notes, mobile phones, and external assistance are prohibited.
- Qualification will be based on the announced scoring criteria.

Round 2 — Design Challenge

- Participants will propose solutions to real-life problem statements.
- Evaluation will consider technical feasibility, viability, and novelty.
- Submissions must be completed within the allotted time.

Round 3 — Build Arena

- Participants must build, test, and demonstrate their hardware solutions using authorized components.
- Evaluation will consider functionality, implementation, troubleshooting, technical understanding, and safety.
- No modifications are permitted after the deadline without organizer approval.

4. General Regulations

- Participants must follow instructions from organizers and judges.
- Plagiarism, cheating, unauthorized external assistance, and collaboration between competing teams are prohibited.
- Only authorized components, tools, and resources may be used.
- Participants must respect others, maintain a clean workspace, and handle equipment responsibly.

5. Penalties and Disqualification

Depending on the severity of the violation, the organizing committee may issue a warning, deduct marks under the published rules, remove a participant or team from a round, or disqualify them.

Serious violations include:

- Cheating, plagiarism, or impersonation.
- Unauthorized assistance or deliberate sabotage.
- Theft or intentional equipment damage.
- Serious misconduct or deliberate safety violations.

Disciplinary decisions will be based on the published rules and available evidence.

6. Judging and Disputes

- Scoring criteria and qualification requirements will be announced before each round.
- Participants may raise scoring or procedural concerns with the event secretaries.
- The event secretaries will review disputes and communicate the decision.

7. Final Regulations

The organizing committee may make necessary schedule changes, resolve unforeseen situations, and suspend activities for safety or fairness. Any significant change affecting participants will be communicated appropriately.

By participating, all contestants agree to follow this rulebook and the instructions issued by authorized event personnel.

***** Rules Can be on spot Changed by Secretaries and Judges (if needed)*****
