ROBO TRACK CHALLENGE

OFFICIAL RULES AND REGULATIONS

1. Event Overview

Robo Track Challenge is an RC car obstacle-course competition where participants must navigate a designated track and overcome obstacles within the allotted time.

2. Team Formation

- Participation is allowed *individually* or in teams of up *to 5 members*.
- Each participant or team may register only one RC car.

3. RC Car Specifications

- Car width must be approximately 30 cm; height and length are unrestricted.
- The RC car must be built by the participant or team. Ready-made RC cars are not allowed.
- Participants may use suitable components, motors, batteries, controllers, and chassis.
- The car must be remotely controlled and safe to operate.
- Organisers may inspect the car before the competition.

4. Track Rules and Penalties

- Track width will be 35 cm.
- Participants must follow the marked track and complete all designated obstacles.
- Touching or crossing track boundaries will result in penalty points.
- Touching or manually repositioning the car, or moving obstacles to gain an advantage, will result in penalty points.
- Skipping obstacles, deliberately damaging the track, or interfering with another participant is prohibited.
- Only the registered operator(s) may control the car during the run.

5. Time Limit and Scoring

- Each participant or team must complete the course within the allotted time.
- Final rankings will be based on completion time and penalty points.
- Failure to finish within the time limit will be handled according to the scoring rules announced before the event.
- In case of a tie, the team with fewer penalty points will rank higher.

6. RC Car Viva

- Participants must attend a short technical viva about their RC car.
- Questions may cover the component, construction and operation of their car.
- The viva may be conducted before or after the track run, as decided by the organisers.

7. Disqualification

Participants may be disqualified for:

- Using a ready-made RC car.
- Deliberately damaging the track or another participant's equipment.
- Repeated rule violations, unsportsmanlike conduct, or refusing to follow officials' instructions.

8. General Regulations

- Participants must bring their RC cars assembled and ready for inspection.
- Judges' decisions regarding scoring, penalties, and viva evaluation will be final.
- The organisers reserve the right to make necessary changes to the rules or track layout. Any changes will be communicated before the competition.
